- [Edit ID3 Tags](#)
- [Convert Local Audios](#)
- [Burn Music to CD](#)
- [Convert AA/AAX Audiobook](#)

Choose Download Mode

Launch NoteBurner Amazon Music Recorder for Windows, and you'll need to choose to convert Amazon Music songs from its app or web player. For Windows users, it's suggested to convert songs from Amazon Music app, so that you could retain up to Ultra HD/HD output quality.

Add Amazon Music Files

Step 1: Drag and drop songs or a playlist from Amazon to NoteBurner, or you can also copy and paste the Amazon playlist link to prompt dialog box. NoteBurner would read the Amazon music automatically.

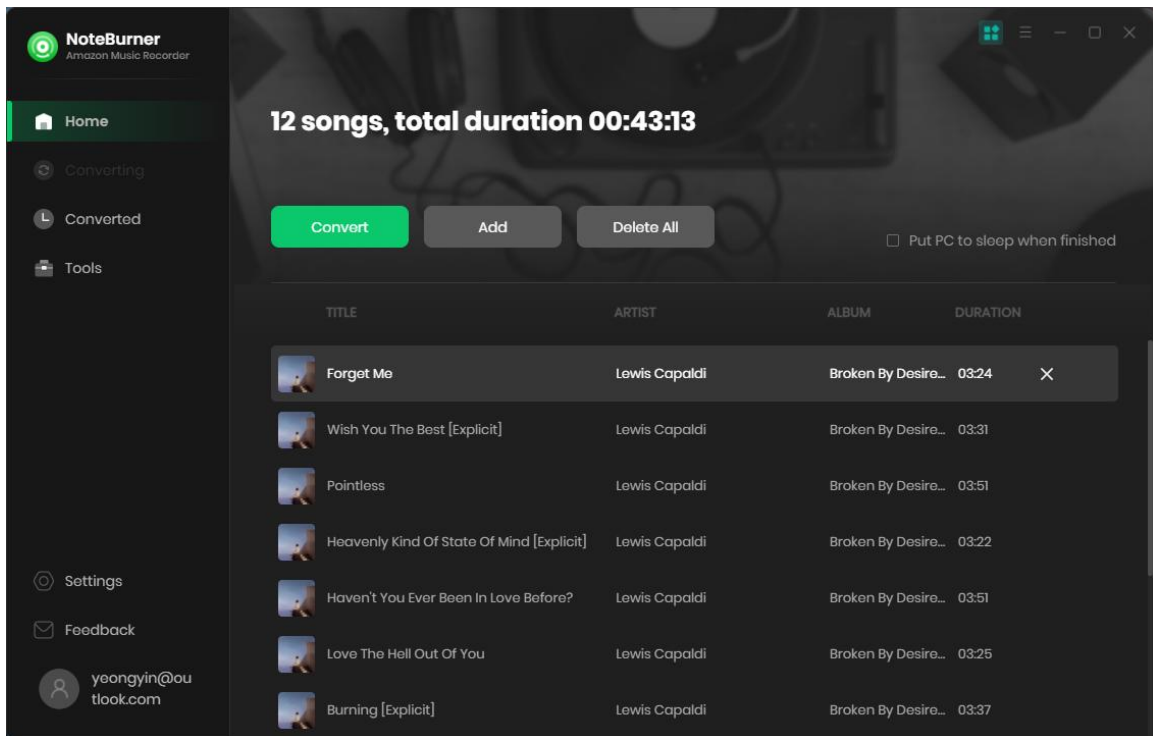

Step 2: Select the files that you'd like to save to your local computer and then click the **OK** button to add them to NoteBurner.

Delete Music Files

Select the files you want to delete and then click the “X” icon at the end of the track to delete it.

Choose Convert Settings

After importing music to NoteBurner, you can click the **Settings** icon on the upper right, where you can choose the output formats(AUTO, MP3, AAC, WAV, AIFF, FLAC, ALAC), Output Quality (320 kbps, 256 kbps, 192kbps, 128 kbps), Conversion Mode, etc.

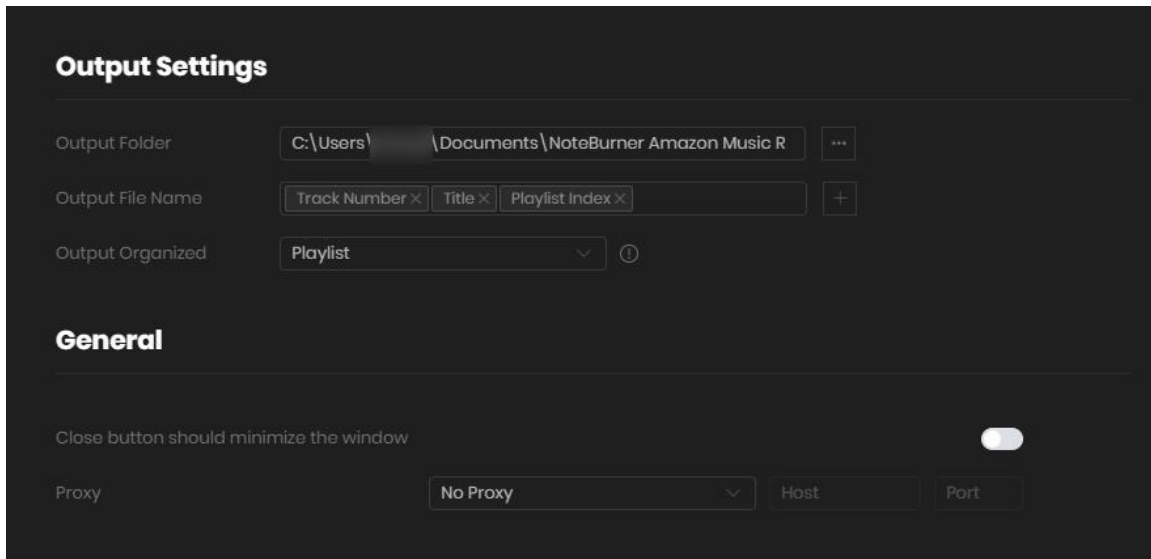

Convert Settings	
Conversion Mode	Amazon Music Record
Covert Speed	<input type="checkbox"/> 1x speed ⓘ
Output Format	MP3
Bit Rate	Very High (320kbps)
Sample Rate	48kHz
After Converting	Open the output folder

Customize Output Settings

Tutorial of NoteBurner Amazon Music Recorder for Windows

In the output settings section, you can click **Browse** button to customize the output directory if needed. Otherwise, the converted files will be saved under the default folder. Also, you can select to keep the converted files organized by Artist, Album, Artist/ Album, Album/ Artist, or none.

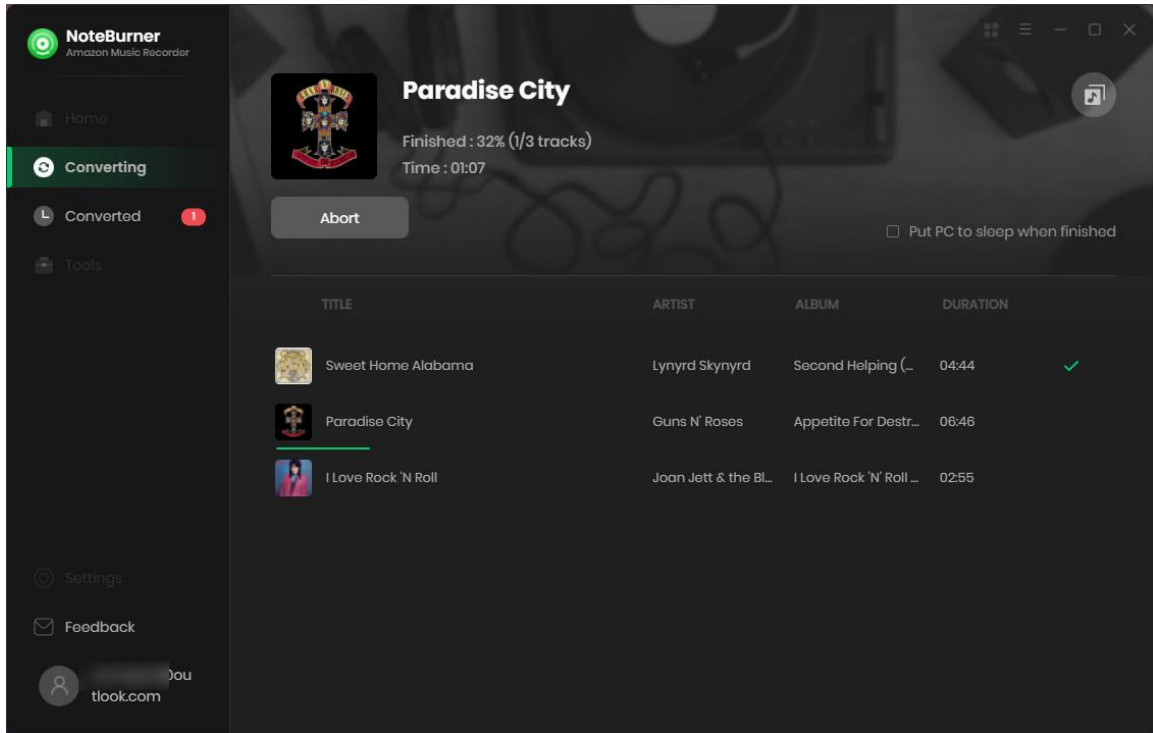

Convert Music Files

Click the **Convert** button and the program will start the conversion. You can see the progress bar on the interface.
